

Commissioner Ashley Collier

Ashley Collier has worked with the 107th, 110th, 111th, and 112th Congress. During this time, she had the honor of working with senior executives from several federal agencies and the MD Delegation for more than 7 years. This position provided the constituents of the 6th District of MD with up-to-date information and outreach, enabled her to successfully resolve more than 2000 cases, and guide many through governmental systems. Ms. Collier made sure to be involved in numerous outreach events for farmers, business, veterans, and the community. Additionally, her experience includes assisting with conferences with topics such as the “Go Green Conference” to promote environmental and energy concerns. This Conference hosted over 1000 attendees and vendors from the Frederick area. Outside of her career, she is an advocate for many causes which are important to her. She feels that volunteering is the best way to get to know your community, build lasting relationships, and give back. This belief has inspired her to work with veterans groups, local charities, farmers, and business incubators. Her interests have put her in direct contact with the local community and the DC Metro community. She served on four non-profit Boards of Directors and currently serves on one non-profit Board of Directors. Ms. Collier finds it an honor to work for our nation in which so many Americans have sacrificed so much to build.
